Every child has the right to exist, to learn and to thrive.

AMEA is a non-profit association in Casablanca. Since 2017 it has provided comprehensive educational and paramedical care to autistic children and their families, and it is recognised as a reference centre by the Wilaya of Casablanca–Moulay Rachid. We are looking for partners to reach more children, in Morocco and in Africa.

127
children currently supported

12
services in the 1,000 MAD monthly package

≤ 300 MAD
paid by families per month; 0 for vulnerable families

2
public funding agreements, 2025–2026

What we do

- **Educational pole**: autonomy, social skills, school inclusion.
- **Paramedical pole**: psychomotor therapy, speech therapy, psychological support.
- **Family support**: guidance, training, psychological and social support for parents.
- **Vocational insertion**: bakery-pastry programme with IFMBP. In 2025: 6 young people trained, 2 in ordinary part-time jobs, 3 in AMEA's protected workshop.
- **Adapted school transport**: small groups of up to 4 children per vehicle.

Measured, written, shared

Families in Morocco are often offered therapy sessions without assessment, report or measurement. At AMEA every child has three confidential reports (psychological support, speech therapy, psychomotor therapy), a monthly report for parents, and an annual report for institutions and funders.

Public funding we manage

Agreement	Amount	Children, duration
INDH 2026: day-services centre (Al Massira 2 social centre)	726,000 MAD of an 891,000 MAD project	66 children, 11 months
Entraide Nationale 2025: schooling support (Abderrahmane Lamkhanet school)	272,493 MAD, received and spent in full (balance 0)	22 children, up to 1 year

Controls on these funds: dedicated bank account, payments by transfer or crossed cheque, financial report validated by a sworn expert (INDH), receipts kept for ten years, unused sums returned. Our annual accounts are being digitised and will be published on our Transparency page.

What one child really costs

Educational pole, per child and month	MAD
Special educator: 4,000 MAD per month for 6 children	666
Speech therapy, psychomotor therapy and psychologist: 3 sessions per month	900
Materials (PECS, pictograms, TEACCH, sensory)	200
Total real cost	**1,766**

The monthly package is 1,000 MAD for 12 services. AMEA covers up to 70% for most children: the family pays 300 MAD, and nothing if vulnerable. Adapted transport costs 9,500 MAD per month per vehicle, for at most 4 children.

Where your support can go

Project	Indicative amount
Sponsor a child for one year	US$ 960
Paramedical kit: speech and psychomotor therapy room	US$ 8,500
Training of 50 mothers (3-month programme)	US$ 6,000
Bakery workshop: full vocational-insertion equipment	US$ 25,000
Adapted 25-seat school bus with trained attendant	US$ 35,000
New model centre for 100 children	US$ 180,000

Our ambition: open new centres in Morocco and Africa, starting with Guinea-Conakry and Burkina Faso. Amounts are indicative.
